Dear Mr. Haller:

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

I am writing to you in reference to the proposed "refarming" of the frequency spectrum from 150 to 512 MHz, better known as Part 88. It is destined to destroy my business.

FCC Part 88 attempts to promote spectrum efficiency and technology development, but its outcome will be a monopolistic power grab of unprecedented proportions.

Part 88 (proposed to replace Part 90) will force the replacement of billions of dollars of perfectly good radio equipment currently used
